

# Student Requirements

## 1. A GOOD LEVEL OF ENGLISH

The interested applicants must demonstrate an adequate knowledge of English, or pass an English exam before admission. A student with a SLEP test score of 50 or a (paper) TOEFL score of 500 is usually good enough to enter into high school without taking additional ESL courses.

Students with test scores below this level may submit letters of recommendation from their teachers in cases where the student's academic strength and/or motivation are considered to be high enough that the student will successfully integrate to compensate for a lower level of English.

It is a big step to attend school in another language: therefore students should understand that they will have to dedicate time to study English in addition to their academic subjects, both inside and outside of school.

## 2. SUCCESSFUL COMPLETION OF THE CURRENT SCHOOL YEAR

## 3. A CERTIFICATE OR LETTER OF GOOD CONDUCT FROM THEIR CURRENT SCHOOL

## 4. MATURE AND RESPECTFUL ATTITUDE

Students should be prepared to study with students of different nationalities, different customs and different lifestyles. They must be able to cooperate with others in their school and at the homestay, to completely adapt to their new life abroad, respecting the laws and customs of the school, the host family and the country.

## 5. HEALTH REQUIREMENTS

Our office should be informed in cases where a student needs to follow a specific diet as well as if a student suffers from any kind of allergic reaction towards a medication.
